## NOTES YOR02

### GUIDANCE WHEN CONSIDERING WORK TO ANY CHURCH PROPERTY

With the cessation of District Councils from 31<sup>st</sup> August 2007 there are inevitably some changes in procedure when a church is considering work to their property. This version of the Guidance Notes replaces all earlier versions.

When work is planned on church property the Church Meeting needs to pass a resolution approving the project. This applies to all work except that of a routine maintenance and repair which would normally be dealt with under a church's maintenance budget. In addition, the Model Trusts contained within the United Reformed Church Act require that where a **church building, manse or other church worker's residence** (e.g. a caretaker's house) is to be altered, enlarged, improved, rebuilt, supplemented or demolished, the approval of District and Synod is also required. The only exception to this process is where the work on or in a building does not substantially alter its character, appearance, structure or value. (A copy of these Model Trusts can be found in The Manual.) Under the new structure all of this is now dealt with by the Synod.

**N.B.** Where the building is Listed, **any** alterations to the building, inside or out (as well as demolition), are likely to require Ecclesiastical Exemption approval, **in addition** to the normal District and Synod approval. Where a church building is in a **Conservation area** and any demolition is proposed, Ecclesiastical Exemption may also be required.

#### **How does a church decide what work needs approval?**

Provided the property is not Listed then work such as external cleaning, internal decorations, painting, replacement of fixtures or a boiler, normal maintenance of buildings and grounds, would not generally need the approval of Synod if costs are below £10,000.

As a general guideline **any** work to buildings that is expected to cost more than £10,000 will normally need approval. Other projects that are **likely to** require approval, regardless of cost, would be extensions, new access for disabled users, removal of pews, a complete new kitchen, replacing windows, forming structural openings, or any reorganisation of internal spaces. A scheme comprising several items of repair or replacement being carried out over a period of a few months, and which in aggregate will cost more than £10,000 may also need approval.

If your building is Listed you are encouraged to consult the Listed Buildings Committee, via the Trust and Property Secretary, at an early stage.

**Synod approval is necessary even if the project is self-financing and the church is not asking for financial assistance.** Synod does not wish to put obstacles in the way of any church development and approval would not be withheld unreasonably. However, it is important that, as a charity, each church is seen to be using its resources wisely and for the appropriate purposes.

In addition to the above process the Synod is a valuable source of expertise and experience and may be able to offer advice or assistance.

If churches are in any doubt about the work they are contemplating, they should contact the Trust and Property Secretary at the Synod Office, as soon as possible.

## **Large projects and those involving external funding**

For large projects it is essential that the church consults with the Synod at an early stage. It is important to ensure that such a project fits within the overall vision for the wider work of the URC as well as the local church. In addition, the support of the denomination will be essential if any funding is being sought from outside sources.

In such cases it may be necessary to seek approval in principle from Synod to allow grants to be sought. This can be done after outline plans have been prepared and priced approximately, but before costly detailed plans are prepared by an architect or tenders are sought. Final approvals can be obtained at a later date. The Trust and Property Secretary or Office Manager can advise about the procedure. If in any doubt, please ask.

### **How do we obtain the necessary approval?**

#### **The procedure is the same whether or not the church requires financial help.**

**Churches will need form YOR01 and YOR01 - Checklist. These are available from the Synod Office or can be downloaded from the Synod website, [www.urcyorkshire.org.uk](http://www.urcyorkshire.org.uk)**

- (a) Before the work outlined in the project is put in hand:
  - (1) The local church must pass a Resolution at the Church Meeting. The resolution will normally stipulate an agreed maximum expenditure.
  - (2) This resolution should be sent to the Office Manager at the Synod Office on Form YOR01 together with ALL the documents and information requested on YOR01-Checklist.
  - (3) The Conveners of the Property and Financial Resources Committees will look at the papers. A decision will be taken on whether the Property Committee wishes to visit the church to hear about the scheme and see the situation for themselves, or whether the Committee actually wishes to hold its formal meeting at the church. We will consult with the church regarding arrangements. Alternatively, it may be that the church is asked to send representatives to the meetings of the two Committees and details of this will be discussed with you.
  - (4) The Property and Financial Resources Committees (or their Emergency Groups) will then consider the request and will normally communicate their views to the church separately. If the view is favourable the Conveners of the Committees will sign the declaration on the Form YOR01 and a copy of the form will be returned to the Church. The Church may only proceed when they are in receipt of the YOR01 duly signed by the Synod Committees.
- (b) When approvals have been given, the work should be put in hand by the Managing Trustees, i.e. the Elders of the local church, if appropriate through any committee authorised by Church Meeting for that purpose.
